2. Read, sign, and date.

By deferring payment(s), I/we understand that interest will still accumulate on the outstanding balance and that, by taking advantage of this offer, the final loan payment may be extended based on the number of payments skipped. Payments will be skipped for up to 60 days or until my governmental agency is funded. Payments made through auto-transfers will not transfer for the period. I/We will resume payments as scheduled (the unpaid interest will be collected first), and all the terms and conditions will apply, following the period skipped. I/We also understand that by choosing to skip payments on a vehicle loan having a Guaranteed Asset Protection policy, I/we will be responsible to repay to the Credit Union any skipped payments in excess of the policy limitations or expiration date. I/We accept that all of my/our accounts with RiverLand Federal Credit Union must be in good standing, that deferred payments are offered as a courtesy service and are not guaranteed, and final approval is at the discretion of the Credit Union.

Signature _____ Date _____

3. Do not submit applications more than 10 days prior to when payments are to be skipped.

Applications will be processed when they are received, and you will skip all qualifying loan payments scheduled until your normal payroll resumes (allow 3 business days for processing).
